

The Loss of a Wife.

In comparison with the loss of a wife, all other bereavements are trifling. The wife, who fills so large a space in the domestic heaven; she buried herself so unweariedly for the precious ones around her; bitter is the tear that falls upon her old clay. You stand beside her coffin, and think of the past. It seems an amber-colored pathway, where the sun shines glittering overhead. Fair would the soul linger there.

No thorns are remembered save those your hands may unwillingly have planted. Her noble, tender heart lies open to your inmost sight. You think of her now, all gentleness, all beauty, all purity. But she is dead! The dear head that lay upon your bosom rests still in darkness, on the pillow of clay. The hands that administered so untiringly are folded, white and cold, beneath the gloomy portal.

The heart, whose every beat measured in eternity of love, lies under your feet. The flowers she bent over with smiles bend now above her in tears, shaking the few petals, that the vesture around her may be kept green and beautiful.— There is no white arm over your shoulder, no speaking face to look up into the eye of love; no trembling lips to murmur, "Oh! it is sad." There is no strange hush in every room—no light foot steps passing around; no smile to greet you at night fall. And the clock ticks and strikes and ticks—it was such music when she could hear it; now it seems a knell on the hours through which you watched the shadows of death gathering upon her sweet face. And every day the clock repeats that old story many another tale it tells, too, of painful words and deeds that are registered above. You feel—how often—that the grave cannot keep her.

It was one of the privileges of the writer to listen to a portion of the address of Rev. Bishop Waugh to the Methodist Conference on Wednesday. It was an unpretending patriarchal speech, delivered with much feeling and a quiet eloquence which touched the hearts of his hearers.

Speaking of Missouri, the Bishop said: "We wage war for India, for China, for Turkey. Ay, brethren, strange as it seems, Missionaries are wanted to labor in Turkey; and in Turkey Missionaries are safer than in a Territory of the United States."

What a burning reproach! The words are simple and few, but each vowel and consonant contains a volume of reproach; each of the natural sounds formed into words is a hiss of scorn and indignation at the men who hold in their hands the destinies of this country. That the Ministers of the Gospel of Christ are safer under the rule and in the dominions of an absolute Monarch of a Heathen kingdom—a drunken sot, than in the Territory of the United States, where the people govern themselves, is a truth which should bluster the fingers of any Christian man who attempts to deposit a ballot to sustain the policy of Pierce, Douglas & Co.

Men and brethren, think of these things. A Missionary safer in Turkey than in a Territory of the U. S., which we boast of as the most enlightened, most liberal, the freest government in the world! The man who votes for the Buchanan ticket at the coming election, votes to sustain a rule in Kansas Territory more illiberal, oppressive and subversive of the inalienable rights of the people than the decrees of the Heathen Sultan of Turkey.

The origin of the word "honey moon" is from a custom of the Tentines, an ancient people of Germany, who drank mead, or methegion, a beverage made with honey, for thirty days after every wedding.
